INDEX TO VOL. LXXXIX

Alphabetic Table of Contents by Authors

AMERICAN SOCIETY OF NATURALISTS, address of president, 5; reports, 249

AUERBACH, C., The mutagenic action of Pyronin-B, 241 BEARDSLEY, R. E., Phage production by crown-gall bacteria, 175

BLAIR, W. FRANK, Size difference as a possible isolation mechanism in Microhlya, 297

CLARK, A. M., Sensitive periods and appar-ent fractionation effects in irradiated Drosophila, 179

CLAYTON, G., and ALAN ROBERTSON, Mutation and quantitative variation, 151

COON, CARLETON S., Some problems of human variability and natural selection in climate and culture, 257

CORY, BROTHER LAWRENCE, F.S.C., The so-called electric organs of Ostracoderms, 177

DEMEREC, M., What is a gene?-twenty

years later, 5 DOBZHANSKY, TH., book notice, 187, 377 DUNN, L. C., The coming of age of blood group research (book review), 55; book

notices, 53, 62, 191, 375, 378
DUNN, L. C., and JOAN A. SUCKLING, A preliminary comparison of the fertilities of wild house mice with and without a mutant at locus T, 231

DUNN, S. P., book notices, 378, 380

FOX, SIDNEY W., and PAUL G. HOMEYER,
A statistical evaluation of the kinship of protein molecules, 163

GRANICK, S., book notice, 62

GREEN, M. M., Pseudoallelism and the gene concept, 65

GROSS, WARREN J., Aspects of osmotic regulation in crabs showing terrestrial habit, 205

HARTMANN, MAX, Sex problems in algae, fungi and protozoa, 321

HILDEMANN, W. H., and GEOFFREY KEIGH-LEY, Techniques for studies of hemoglobin synthesis in Daphnia, 169

HRUBRANT, H. EVERETT, An analysis of the color phases of the Eastern screech owl, Otus asio, by the gene frequency method, 223

KING, JAMES C., Integration of the gene pool as demonstrated by resistance to DDT, 39

KING, R. C., A method for studying successive batches of eggs laid by treated or control Drosophila, 369

LANDAUER, WALTER, Recessive and sporadic rumplessness of fowl: Effects on penetrance and expressivity, 35, The genetics of dynamic equilibria (book review), 183

LAUGHNAN, JOHN R., Structural and functional bases for the action of the A alleles in maize, 91

LERNER, I. MICHAEL, Buffered genotypes and improvement in egg production, 29

LEWIS, E. B., Some aspects of position pseudoallelism, 73

LI, C. C.. The stability of an equilibrium and the average fitness of a population,

MARTIN, PAUL S., Zonal distribution of vertebrates in a Mexican cloud forest, 347

MAYR, E., book notice, 375 METZ, C. B., book notice, 187 MOORE, JOHN A., book notice, 371

MOSSIGE, JEANNE COYNE, Sperm utilization and brood patterns in Drosophila melanogaster, 123

ORTON, GRACE L., Some aspects of ecology and ontogeny in fishes and amphibians, 193

PARK, THOMAS, and MONTE LLOYD, Natural selection and the outcome of competition, 235

PETERS, JAMES A., Use and misuse of the biotic province concept, 21

PHAFF, HERMAN J., A new method of col-lecting Drosophila by means of sterile

bait, 53 PUBLICATIONS RECEIVED, 61, 187, 255, 319, 371

RIZKI, M. T. M., book notice, 191

RYAN, FRANCIS J., Phenotypic (phenomic) lag in bacteria, 159, book notice, 63 SANGHVI, L. D., Inbreeding, genes and

phenotypes, 247

SEARS, P. B., book notice, 189

SHADLE, ALBERT R., Effects of porcupine quills in humans, 47

SHEPPARD, P. M., book notices, 188, 189 SPIETH, HERMAN T., book notice, 372,

STEBBINS, G. LEDYARD, book notice, 320 STEPHENS, S. G., (Genetics Society sym-

posium) Summary, synthesis and critique,

STORMONT, CLYDE, Linked genes, pseudo-

alleles and blood groups, 105 STRAUSS, BERNARD S., A mechanism of gene interaction, 141

VOLPE, E. PETER, Intensity of reproductive isolation between sympatric and allopatric populations of Bufo americanus

and Bufo fowleri, 303
WARBURTON, FREDERICK E., Feedback in development and its evolutionary significance, 129

WHITE, PHILIP R., Cellular biology and tissue culture, 363

ZOHARY, DANIEL, Secondary centric activity in Lilium formosanum, 50

Subject Index

and ontogeny, 193 in time, 258 in space, 258 Agrobacterium tume/aciens, 175 algae, sex in, 321 allelism, 12 amphibia of Mexico, 24 ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, murability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bufo americanus, 303 B. foruleri, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." 371 centric activity, 50 cloud forest, vertebrates in, 347 color phases in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphaia, hemoglobin synthesis, 169 Drosophila namcrospina, 241 Drosophila fumebris, 313 Drosophila fumebris, 313 Drosophila fumebris, 313 Drosophila fumebris, 313 Drosophila marrospina, 313 Dumaliella species, 322 and ontogeny, 193 in fowl, 35 in Drosophila, 151, 369 electric regardation, 40 ecclogy, 193 in brosophila, 151, 369 electric organs, 177 Electrophorus electricus, 172 Eng production, 175 in fowl, 39 in Drosophila materia, 175 brues devol	Acetabularia mediterranea, 322	ecology
in time, 258 in space, 258 Agrobacterium tumefaciens, 175 algae, sex in, 321 allelism, 12 amphibia of Mexico, 24 ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bufo americamus, 303 B. fowleri, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." 371 Concept, 65 duplication, 100 interaction, 100 interaction, 100 interaction, 100 interediac, 129 homeostasis in, 183 molecular, 165 in fishes & amphibians, 193 feedback, in evolution, 129 fishes, ecology, 193 diadromous, 199 marine, 200 fitness, 221 squalition, 6 evolution, 129 fishes, ecology, 193 diadromous, 199 marine, 200 fitness, 221 squalition, 6 evolution, 129 fishes, ecology, 193 diadromous, 199 marine, 200 fitness, 221 squalition, 100 interaction, 100 interaction, 120 squalition, 120 fishes, 122 ponnecular, 123 ponnecular, 125 book review, 183 book review, 183 benev		
in space, 258 Agrobacterium tume/aciens, 175 algae, sex in, 321 allelism, 12 amphibia of Mexico, 24 ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bufo americanus, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects," 371 cellular biology, 363 Chamydomonas C. engometos, 321, 340 C. paupera, 325 chromosomes centric activity, 50 cloud forest, vertebrates in, 347 color phases in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Toron-gall bacteria, 175 DDT, resistance, 39 Daphnia, hemoglobin synthesis, 169 Drosophila collecting method, 53 gene pool, 39 brood patterns, 123 pseudalleles, 67, 76 effects of irradiation, 151, 179 egg production, 175 lictrophorus electricus, 177 Electrophorus electricus, 175 in these dam untation, 6 evolution, 129 fishes, ecology, 193 diadromous, 199 marine, 200 fitness, 281 fowl, egg production, 29 rumplessness, 35 fungi, sex in, 321, 333 gamones, 321, 333 gamones, 321, 337 gene, 5 duplication, 100 interaction, 141 and phenotypes, 247 frequency, 223 Genetic homeostasis book review, 183 Genetics Society of America, symposium, 65 hemoglobin, in Daphnia, 169 heterozygosity, in fowl, 29 osmotic regulation, 205 H. beidelbergensis, 260 H. soloensis, 261 house genus, 22 feretic ori		
Agrobacterium tumefaciens, 175 algae, sex in, 321 allelism, 12 amphibia of Mexico, 24 ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 355 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bufo americanus, 303 B. fowleri, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." 371 cellular biology, 363 Chamydomonas C. engometos, 321, 340 C. paupera, 325 chromosomes centric activity, 50 cloud forest, vertebrates in, 347 color phases in screech owl, 223 Communication ability, variations in, 277 reasistance, 39 Daphnia, hemoglobin synthesis, 169 DTT, resistance, 39 Daphnia, hemoglobin synthesis, 169 DTOSophilal collecting method, 53 gene pool, 39 brood patterns, 123 pseudalleles, 67, 76 effects of irradiation, 151, 179 egg production, 151, 369 effects obnivagens, 241 Drosophila fumebris, 313 Drosophila macrospina, 313		Egg production
algae, sex in, 321 allelism, 12 amphibia of Mexico, 24 ecology, 193 ontogeny, 193 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 buffered genotypes, 29 Bufo americamus, 303 B. fowleri, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." Schamydomonas C. engometos, 321, 340 C. paupera, 325 chromosomes in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphnia, 169 herozygosity, in fowl, 29 in mice, 231 hemostasis book review, 183 Genetics Society of America, symposium, 65 Hemoglobin, in Daphnia, 169 herozygosity, in fowl, 29 in mice, 231 hemostasis book review, 183 Genetics Society of America, symposium, 65 Hemoglobin, in Daphnia, 169 herozygosity, in fowl, 29 in mice, 20 fitness, 281 fowl, egg production, 29 rumplessness, 35 fuggi, sex in, 321, 333 genene, 50 ootoept, 65 duplication, 100 interaction, 141 and phenotypes, 247 frequency, 223 Genetic homeostasis book review, 183 Genetics Society of America, symposium, 65 Hemoglobin, in Daphnia, 169 herozygosity, in fowl, 29 in mice, 206 H. soloensis, 260 H. soloensis, 270 inhitediack, 177 Electroborous electricus, 177 Electroborous electricus, 177 Electroborous electricus, 177 Electroborous electricus, 18 Escherichia coli mutation, 6 evolution, 129 fishes, dedback, in evolution, 129 fishes, deadback, in evolution, 129 fishes, deadback,		
allelism, 12 amphibia of Mexico, 24 ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bufo americanus, 303 B. fouleri, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." 371 cellular biology, 363 Chamydomonas C. engometos, 321, 340 C. paubera, 325 chomosomes centric activity, 50 cloud forest, vertebrates in, 347 color phases in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphnia, hemoglobin synthesis, 169 Drosophila collecting method, 53 gene pool, 39 brood patterns, 123 pseudalleles, 67, 76 effects of irradiation, 151, 179 egg production, 151, 369 effects of mutagens, 241 Drosophila fumebris, 313 Drosophila macrospina, 313		
amphibia of Mexico, 24 ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 buffered genotypes, 29 Bulo americanus, 303 B. fouleri, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." 371 buffered genotypes, 29 Bulo americanus, 303 C. engometos, 321, 340 C. pampera, 325 chromosomes C. engometos, 321, 340 C. pampera, 325 chromosomes in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphnia, hemoglobin synthesis, 169 DTOsophila collecting method, 53 gene pool, 39 brood patterns, 123 pseudalleles, 67, 76 effects of irradiation, 151, 179 egg production, 151, 309 effects of intradens, 241 Drosophila fumebris, 313 Drosophila fumebris, 312 Drosophila fumebris, 313 Drosophila fumebris, 313 Drosophila fumebris, 313 Drosophila fumebr		electric organs, 177
of Mexico, 24 ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bufo americanus, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects," 371 sects," 371 sellular biology, 363 Chamydomonas C. engometos, 321, 340 C. paupera, 325 chromosomes centric activity, 50 cloud forest, vertebrates in, 347 color phases in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphnia, hemoglobin synthesis, 169 Drosophila collecting method, 53 gene pool, 39 brood patterns, 123 pseudalleles, 67, 76 effects of irradiation, 151, 179 egg production, 151, 699 effects of mutagens, 241 Drosophila fumerbris, 313 Drosophila macrospina, 313		
ecology, 193 ontogeny, 196 Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 355 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 biffeed genotypes, 29 Bufo americanus, 303 B. fouderi, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." 371 buffeed genotypes, 29 Bufo americanus, 303 C. engometos, 321, 340 C. paupera, 325 chromosomes C. engometos, 321, 340 C. paupera, 325 chromosomes in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphnia, hemoglobin synthesis, 169 DTO, resistance, 39 papha, hemoglobin synthesis, 169 DTO, gene fred of mutagens, 241 Drosopbila fumebris, 313 prosopbila fumebris, 313 Drosopbila macrostina, 313		
andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 birds, of Mexico, 355 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bulo americanus, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects," 371 cellular biology, 363 Chamydomonas C. engometos, 321, 340 C. paupera, 325 chromosomes centric activity, 50 cloud forest, vertebrates in, 347 color phases in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphnia, hemoglobin synthesis, 169 Drosophila collecting method, 53 gene pool, 39 brood patterns, 123 pseudalleles, 67, 76 effects of intadiation, 151, 179 egg production, 151, 369 effects of mutagens, 241 Drosopbila tumebris, 313 Drosopbila dumerosipina, 313		
Andrewartha, H. G., "The Distribution and Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L. C., "The Distribution and Abundance of Animals," 371 birds, of Mexico, 353 blood groups in man, 55, 248 allelism, 105 gene frequencies, 248 Brain, variations in, 271 Brues, C. T., "Classification of Insects." 371 buffered genotypes, 29 Bufo americanus, 303 B. fouleri, 303 B. terrestris, 314 Carpenter, F. M., "Classification of Insects." 371 cellular biology, 363 Chamydomonas C. engometos, 321, 340 C. paupera, 325 chnomosomes centric activity, 50 cloud forest, vertebrates in, 347 color phases in screech owl, 223 Communication ability, variations in, 277 crabs, osmotic regulation, 205 Crown-gall bacteria, 175 DDT, resistance, 39 Daphnia, hemoglobin synthesis, 169 Drosophila collecting method, 53 gene pool, 39 brood patterns, 123 pseudalleles, 67, 76 effects of irradiation, 151, 179 egg production, 151, 369 effects of irradiation, 151, 179 egg production, 151, 369 effects of mutagens, 241 Drosophila fumerbris, 313 Drosophila fumerostina, 313		mutation, 6
Abundance of Animals," 371 bacteria, mutability, 6 phenomic lag, 159 phage production, 175 biotic province, 21 Birch, L.
